EJEAS Q8 Motorcycle Intercom

The EJEAS Q8 motorcycle intercom is ideal for motorcyclists looking for an advanced group communication device. With Mesh technology, IP67 water resistance and a range of music and audio features, the Q8 is the perfect combination of functionality and convenience. It's a device that will work well for both long trips and short excursions, providing continuous communication and additional entertainment.

Innovative Mesh Communication

Mesh technology allows for dynamic connections between users, which means that the network can reconfigure itself if coverage is lost with one of the devices, ensuring continuous group communication. This flexibility makes the Q8 a reliable choice for motorcyclists who value stable connections.

Entertainment and communication

The EJEAS Q8 motorcycle intercom offers music sharing between users, allowing them to listen to the same playlist while on the road. In addition, the device allows you to use intercom and music or intercom and FM radio simultaneously, enhancing your riding experience.

Advanced sound options

The intercom is equipped with features that allow users to adjust microphone sensitivity, which is useful in changing sound conditions, as well as a microphone mute option for added comfort. The ability to switch channels allows users to easily change talk groups without having to pair the devices again.
