Gens ace G-Tech 5000mAh 14.8V 4S1P 60C Lipo Battery with XT90 Plug-Bashing Series Connector.

The Gens ace G-Tech with XT90 Connector Plug-Bashing Series is a high-performance power source designed specifically for RC models, especially 1:8 scale cars, and is ideally suited for use in ARRMA 1:8 models such as Typhoon, Kraton, Nero, Senton and Outcast. With a capacity of 5000mAh and a voltage of 14.8V, it provides a stable and long-lasting power supply, which is crucial during heavy use in harsh environments. A high discharge rate of 60C ensures adequate power for high speeds and efficient control response. The XT90 connector guarantees a safe and reliable connection, and the recommended charge rate of 1-3C allows for quick recovery to full power.
