

Battery Tester with printer AnceL BST600

Model: BST600

Manufacturer: ANCEL

EAN: 5906168439155

Product Code: 424458

R3,466

AnceL BST600 battery tester with printer

The AnceL BST600 is a reliable and professional battery diagnostic tool that combines a wide range of test functions with the convenience of use and the ability to print results instantly. It's the ideal choice for anyone who needs accurate and fast battery test results, regardless of vehicle type or battery specifications.

Built-in thermal printer

One of the key strengths of the BST600 is its built-in thermal printer, which allows for instant printing of test results. This makes it possible to quickly document the status of the battery, along with the exact test time and serial number, which is particularly useful in professional applications.

Testing functions

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The BST600 offers a wide range of tests to help you fully assess the condition of your battery. The voltage test provides a real-time measurement of the battery voltage, while the start-up test checks the battery's performance during engine start-up. A charge test, internal resistance test, wave test and accurate measurement of the battery's starting capacity are also available.

Advanced features

The BST600 tester not only measures the battery's voltage and capacity, but also offers advanced functions such as monitoring the battery's condition and state of charge, load test, and data review.

Intuitive interface

The device features an easy-to-read LCD screen and intuitive menus that make it easy to navigate the tester's functions. With free updates available, the BST600 always stays up to date with the latest standards and features.

Manufacturer	Ancel
Model	BST600
Device type	Battery tester with built-in thermal printer
Compatibility	12V and 24V lead-acid, AGM, GEL, VRLA batteries
Display	LCD
Functions	Voltage test, charge test, starting test, internal resistance test, wave test, starting capacity measurement (CCA), battery temperature monitoring
Supported languages	English / Spanish / Polish / Japanese / German / Chinese / Italian / Russian / French / Dutch

Gross weight: 900, Net weight: 817, Box length: 32,00, Box width: 15,00, Box height: 8,00, GPSR Link: https://psr-assets.innpro.pl/car_accessories/sg_car_accessories_diagnostic_tools.pdf, PPWR: <https://ppwr.innpro.pl/ancel>
