4-in-1 hair stylist ANLAN 05-ACFS41-02E

ANLAN 05-ACFS41-02E hair stylist is a device that combines as many as four functions: hair dryer, curling iron, modeling brush and straightening brush. This way you can easily create a variety of hairstyles - from perfect curls to smooth strands to stylish waves with a natural effect. One device provides comprehensive hair care and styling every day.

Fast drying and overheat protection

With the power of a 110,000 rpm motor, the stylist provides fast and efficient drying. Adjustable temperature settings (63°C, 85°C and cool air) allow you to adjust the mode to your hair's needs, while ensuring protection from overheating. The high air speed allows you to dry without the risk of dryness, leaving your hair soft and shiny.

Automatic curler

The automatic curling function allows you to create perfect curls easily and conveniently. A variety of tips allow you to achieve both subtle waves and defined curls with volume. The intuitive tip changing system allows you to switch efficiently between the device's functions, matching the styling to the occasion.

Negative ions for healthy hair

The ANLAN 05-ACFS41-02E features an ionization function that reduces static while giving hair a healthy look and natural shine. This not only ensures perfectly styled hair, but also protects it from heat styling damage.

Compact and convenient solution

The styler was designed with ease of use in mind. The lightweight construction and handy design make the device ideal for both home and travel. In addition, the 2-stage speed control and 3 temperature settings provide full control over styling, regardless of hair type.

Versatile use and simple operation

Changing tips is quick and hassle-free thanks to the intuitive attachment system. The stylist supports voltage from 100V to 240V, which makes it an excellent choice when traveling abroad. It is also worth mentioning that the device is sold with a European plug - an adapter may be necessary for other standards.

Included

- Styler base x1
