

Lindy 50m USB 1.1 Cat.6 Extender

Model: 42805

Manufacturer: LINDY

EAN: 4002888428057

Product Code: 428493

R1,342

The Lindy Cat.6 USB Extender can be used to extend the distance between a USB device and a host computer by up to 50m. It consists of a local unit, which can be connected to the computer or laptop and a remote unit which connects to USB devices like storage devices, perfect for long-distance access to files.

Standard, low-cost Cat.5e/6 cable (not included) is used to connect the two units together. For best performance and compatibility, we recommend the use of solid core patched cables.

A power supply can be connected optionally for use with high current USB devices.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
