10 years warranty

These LINDY power cables are perfect for use in professional areas (recording studios, light systems and also for event locations of any kind, etc.) – but you can also use them in private sections.

Due to the high temperature resistance from -10 to 70°C during operation, these cables can also be used in non air-conditioned areas.

Note: Cables with IEC C13 sockets such as this are sometimes known by the generic term 'kettle lead'. Even though this term is commonly used, technically it is incorrect as a kettle requires special
