

Lindy HDMI CEC Less Adapter, Female to Male

Model: 41232

Manufacturer: LINDY

EAN: 4002888412322

Product Code: 428583

R746

Blocks HDMI CEC signals when there is an incompatibility

Use this adapter when you have problems with incompatibilities between IR remote controls; such problems tend to occur now and then in installations with HDMI splitters and -switches.

The adapter does not pass on the CEC signal further. In principle, you only need to use this adapter upstream of the incompatible devices. However, several adapters installed upstream of a number of devices can be used.
