The Lindy DisplayPort 1.2 to HDMI Converter is ideal for connecting a DisplayPort equipped source such as a PC or laptop to an HDMI monitor or TV. It supports resolutions up to 4K 3840x2160@30Hz and allows audio pass-through if supported by the video source.

The converter can also be used to add another display to extend the available desktop workspace and increase productivity. It is also ideally suited for travelling due to its compact, lightweight form factor and convenient Plug and Play installation.

This Converter requires the source or graphics card to support DP++ to provide dual-mode signals.
