

Lindy 10m USB 3.0 Active Cable Slim

Model: 43227

Manufacturer: LINDY

EAN: 4002888432276

Product Code: 428876

R1,961

The Lindy USB 3.0 Active Cable uses built-in active electronics to extend the cable length of a USB 3.0 device by an additional 10m whilst continuing to support data transfer rates of up to 5Gbps. With USB A male and USB B male connectors this product allows Type B devices such as printers to be connected directly at longer distances and ensures flexible positioning.

The Lindy USB 3.0 Active Extension Cable is compatible with all USB Type A equipped computers. With plug and play functionality, this extension cable can be installed quickly and with minimum fuss. The cable's unique and slim design allows easy installation due to the active electronics that are housed in a small cable mould - an advantage over other active USB leads which use bulky connectors.

It is recommended that this extender is used with low power or self powered USB peripherals and not high power consuming devices, unless they have their own power supply. Information about USB 3.0, 3.1 and 3.2

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
