Brother P-touch Pro Tapes are built with tough and durable professional grade materials and adhesives. Primarily designed for long term reliable identification of CAT5e/CAT6/CAT6A networking cables that have a diameter of 3.0 to 10.4mm. This self-laminating labelling tape has been rigorously tested by Brother to ensure you can print ID labels quickly and efficiently. The TZe-SL261 provides a protective layer over the printed area for cable marking, ensuring your future identification needs are reliably met. Part of the Brother Pro Tape range, this self-laminating tape is compatible with selected models of professional P-touch label printers ensuring you can print ID labels quickly and efficiently.
