

**Ernitec 0070-
24122-POE
computer
monitor 55.9 cm
(22") 1920 x
1080 pixels Full
HD LED Black**

Model: 0070-24122-POE

Manufacturer: ERNITEC

EAN: 5715063081341

Product Code: 449953

R3,206

Industrial level DID LCD panel

- Suitable for extensive 24/7 continuous operating hours
- Physical resolution of 1920×1080
- 5ms fast response time, no image ghosting.
- Adapt newest 3D digital filtering and 3D digital noise

reduction technology

- Picture fast response
- 178° wide viewing angle
- Ensure that the image display is not deformed

- High fidelity digital processing, brilliant and vivid video
- Built-in speaker
- Menu with convenient controller
- Power: Supports transfer of 100m power from PoE switch, POE injector or even from a free POE port on the NVR to

monitor directly, Green Power Devices

- POE type - IEEE 802.3af/at/bt

PoE eliminates the need for separate power cables.

A single Ethernet cable carries both data and power, streamlining installation and reducing clutter.

Cost-Effective:

PoE reduces infrastructure costs by minimizing the number of cables and power outlets required.

No need for additional power supplies or electrical work.

Flexibility and Scalability:

Easily relocate or expand surveillance systems without rewiring.

Add new devices (monitors, cameras, etc.) without major modifications.

Remote Power Management:

Monitor and control power remotely.

Reboot devices or adjust power settings from a central location.

Reliable Performance:

PoE monitors receive consistent power supply, reducing downtime.

Uninterrupted operation even during power outages (with backup power solutions).

Safety and Efficiency:

Low-voltage power delivery minimizes electrical hazards.

Energy-efficient operation.

Integration with Network Infrastructure:

Seamlessly integrate with existing Ethernet networks.

Compatible with PoE switches and routers.

Clean Aesthetics:

Fewer visible cables enhance the overall appearance of the surveillance setup.

VESA size: 100x100
