

Lenovo N5321 Internal WWAN

Model: 04W3823

Manufacturer: LENOVO

EAN: 5712505744840

Product Code: 451263

R1,940

The ThinkPad N5321 Mobile Broadband HSPA+ is a wireless WAN-ready option that provides high speed on the go internet access. WWAN is a predictable, cost-efficient remote access solution. Instead of managing the setup, use, and payment of multiple connectivity solutions for your remote workers (remote office connectivity, hotel and airport Wi-Fi, and home office access), you can use a single, cost-effective solution with wide national coverage, consistent experience, simple setup, comprehensive support, and predictable cost. Key Benefits: HSPA+ provides high-speed, high capacity mobile broadband. Delivers a true broadband experience to any device, anytime, anywhere.
