

Canon WS-1210T calculator Desktop Display Black

Model: 0694B001

Manufacturer: CANON

EAN: 4960999291246

Product Code: 451732

R1,312

A 12-digit desktop calculator offering handy Tax Calculation functions and adjustable LCD display panel. With an 'IT-touch' keypad, dual power source and a professional black finish.

12-digit desktop calculator with Tax functions and friendly IT-touch keypad

Comprehensive functions with Tax Calculation

The 12-digit WS-1210T calculator offers an extensive range of functions. Three Tax Calculation keys handle tax rates at a touch. A slide switch provides easy decimal point selection and rounding. The Grand Total memory automatically accumulates totals. Other convenient keys include Mark-up, Sign Change, Reverse and all the regular functions you'd expect from a Canon calculator.

Adjustable LCD display panel

A large and clear adjustable LCD display panel minimises glare and reflection. Simply tilt the panel for optimum legibility and comfort in any light conditions. Figures remain easy to read even after extended use.

Friendly 'IT-touch' keypad

Canon's spacious 'IT-touch' keypad ensures easy and efficient operation. The concept is based on a computer keyboard design for steady and accurate entries. Key roll over functionality allows speedy entry without keys blocking. Big colour-coded key tops are durably moulded to withstand heavy-duty use.

Practical dual power source

A battery and solar dual power source ensures reliable use anywhere and everywhere - whatever the light conditions.

Smart and professional style

This compact and lightweight black calculator has a smart and professional look. It's designed to fit neatly on your desk or shelf.
