

Canon imageFORMULA ScanFront 400 Network Document Scanner

Model: 1255C003

Manufacturer: CANON

EAN: 4528472107110

Product Code: 454827

R30,628

Dedicated network scanner

The Canon imageFORMULA ScanFront 400 is the ultimate network scanner for streamlining document workflows. The simple interface allows quick and easy scanning to email, network folders, FTP, USB memory, fax, or printers directly from the scanner's bright and responsive 10.1" (25.7 cm) TFT touchscreen - no additional hardware or software required.

Ideal for every business

Its desk-friendly size, elegant design and quiet operation make it perfect for both back office use and consumer-facing countertops in retail, banking, healthcare and the legal profession. Small businesses can share the device across the office, while large corporations can integrate the scanner into existing infrastructures for both central department scanning and decentralised scanning in

branch offices.

Boost productivity

Scan more documents with high-speed scanning at 45 pages per minute, plus a large 60-sheet ADF. Canon's tried and tested document feeding mechanism and durable build quality, rated for up to 6,000 scans per day, ensure unparalleled reliability. Ultra-sonic sensors instantly detect double feeds, while the Double Feed Release (DFR) function enables easy scanning of envelopes and folded documents.

ScanFront Administration Tool

Administration tool software allows you to manage multiple ScanFront scanners at a time. You can check the current status of the ScanFront scanners on the network, configure settings, manage users, back-up and restore configuration data.

uniFLOW compatibility

Take advantage of the uniFLOW support for Canon's ScanFront network document scanner to improve scan-capture workflows and enjoy more value from your Canon fleet. Featuring compact design and ultra-reliable document feeder, ScanFront can be positioned where it's most needed to capture a wider range of documents more efficiently.

Software Developer Kit

Our Business Solutions Developer Programme (BSDP) is dedicated to give you access to a range of technical information to assist development of applications for our range of business products.
