

Yealink W80 DECT IP Multi- Cell system

Model: 1302013

Manufacturer: YEALINK

EAN: 6938818305373

Product Code: 455005

R6,633

Cordless DECT IP Multi-Cell System

The Yealink W80 DECT IP Multi-Cell System, consisting of two elements - a base station W80B and a DECT Manager W80DM, is designed to provide the organizations who require wireless coverage with the full ease of deployment. This DECT multi-cell system intends to create an extremely scalable and reliable solution for the organizations of any size and any shape. The system supports up to 100 handsets and 100 simultaneous calls, that not only ensures one call in each handset, but also allows you to get rid of the limited wireless coverage of only one base station. Meanwhile, the system can work with Yealink W53H, W56H, CP930W and DD Phone with seamless roaming and handover of the calls, making freely mobile communication in and between each zone achievable. Both W80B and W80DM join the modern, compact design with Yealink HD voice quality, which is wrapped with the full-duplex technology and Opus, that setting free your ears and giving you an elaborate audio experience.

Key Features and Benefits

Security & Stability

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Based on Yealink DECT technology, W80 DECT IP Multi-Cell System provides you with both the stable call and the seamless roaming and handover. Wireless data transmission over-the-air is ensured by the DECT encryption and the wirelessly eavesdropping on a conversation is not possible either. At the same time, TLS and SRTP play a pivotal role in secure SIP communication. Pack Yealink W80 DECT IP Multi-Cell System with the powerful Grayscale Upgrade feature, when you perform upgrade for one handset, other handsets are free from this process and the whole system still runs in safety and stability.

Advanced DECT Contacts

When a call is coming, the receiver can obtain the caller information, including the caller number and caller name, from the phone screen easily and clearly rather than just a row of digits. Better compatibility with several PBX platforms makes the contacts from different platforms reachable on the Yealink W80 DECT IP Multi-Cell System, like Xsi directory, XML contacts. Besides, LDAP and Remote Phonebook.

Efficient Provisioning & Unified Management

The W80 DECT IP Multi-Cell System inherits the Yealink powerful Auto-p mechanism from W60B, that the efficient provisioning and effortless mass deployment can be simply implemented via Yealink's Redirection and Provisioning Service (RPS) and auto provisioning. Moreover, you can configure and manage the entire multi-cell system on the web portal of DECT Manager, making the deployment, maintenance and upgrade to be trouble-free as well as saving even more time and IT costs for businesses.

Easy Setup and Deployment

In the multicast network, administrators profit from zero touch provisioning that the system is established as soon as the base station is powered on and connected to the network. Do not worry if you are in the non-multicast network environment, just configure the IP address of the DECT Manager via the web user interface of the base station to complete the deployment. How to quickly identify the right position for any of the W80B base stations? Try the Yealink Deployment ToolKit and it will be your right hand for planning of large deployments.

Compatible with Multiple Devices

Yealink W80 DECT IP Multi-Cell System is compatible with multiple Yealink DECT devices, including W56H, W53H, CP930W and DD Phone, that all of those devices can be connected to one single or
