

InLine EV car charging cable 22kW Type2, 3-phase, 7.5m

Model: 16287I

Manufacturer: INLINE

EAN: 4043718316458

Product Code: 456247

R5,151

This EV car charging cable from InLine is suitable for charging all vehicles with the type 2 plug standardised in Europe for charging processes up to 22kW (32A). You can use it to easily connect your electric or hybrid vehicle to public charging stations or wallboxes with charging sockets. Particularly robust and manufactured to a high standard, the 3-phase cable is designed for long-lasting use in different environments and weather conditions. The cable is protected against dust and water. The couplings have protective caps as standard to reliably prevent soiling and moisture inside.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
