

InLine Socket strip, 4-way, 2x CEE7/3 + 2x Euro CEE 7/16, white, 3m

Model: 16443W

Manufacturer: INLINE

EAN: 4043718186358

Product Code: 456353

R924

Combined plug configuration for flexible use:The 4-way power strip has 2x safety plugs and 2x Euro plugs and is ideal for devices with different plug types.

45° alignment for optimal space utilisation:The angled arrangement of the sockets allows larger power supplies to be connected without blocking adjacent connections.

High load capacity up to 3500W:With a maximum power of 3500W, the power strip is suitable for powerful devices in office or household environments.

Angled safety plug with connection cable:The H05VV-F3G1.5mm² cable ensures a safe power supply. The angled plug allows for space-saving installation.

Increased touch protection and GS tested:For additional safety in daily use, even in sensitive environments.

The InLine® 4-way power strip combines safety plug and Euro plug connections in a compact

solution. With 2x safety plugs and 2x Euro plugs, it offers flexible connection options for different devices and power supplies.

The 45° alignment of the slots facilitates the use of larger plugs and prevents the connections from blocking each other. With a maximum power consumption of 3500W, the strip is suitable for office workstations, technical areas or household applications.

The H05VV-F3G1.5mm² connection cable and the angled safety plug enable space-saving and safe installation. The increased touch protection contributes to additional safety. The power strip is GS-tested.

Number of connections: 4

Connections: 2x safety contact + 2x Euro

Input voltage: 230V

Max. power: 3500W

Cable type: H05VV-F3G1.5mm²

Material: plastic

Colour: white

Increased touch protection
