

InLine AC Power cord, , for notebook, black, 2m

Model: 16657D

Manufacturer: INLINE

EAN: 4043718210510

Product Code: 456546

R855

Safe power supply: Three-wire design with protective contact enables standard-compliant and reliable power supply for external power supplies.

Space-saving installation: The angled protective contact plug reduces the space required on power strips and behind furniture.

High-quality workmanship: Injected plugs in a robust design increase mechanical resilience in daily use.

Compliant with standards and certifications: VDE certification supports professional use in standardised IT environments.

This InLine® power cable is used to supply power to external power supplies for notebooks and similar devices with an IEC 60320 C5 connection. The three-wire cable with protective contact establishes a safe and standard-compliant connection to the 250V mains supply.

The angled safety plug facilitates installation in confined spaces and supports tidy cable

management in workplaces and technical facilities. The moulded plugs provide increased mechanical
