InLine® adapter for connecting a cable with an HDMI connector to a source or peripheral device equipped with a Mini HDMI port. Tested on a Display with 4K2K @30Mh resolutions, this adapter also finds applications in Audio / Video (A/V) systems, Home Entertainment, Digital Signage, digital signage, professional and industrial videoposters or digital signage in environments such as conference rooms, auditoriums, airports, stadiums and more. This adapter is bent at a 90-degree angle, which facilitates installation in situations where the distance between the TV or monitor and the wall is narrow.
