

Powerline 1240 AX 1200 Mbit/s Ethernet LAN Wi-Fi White 1 pc(s)

Model: 20003023

Manufacturer: AVM

EAN: 4023125030239

Product Code: 458345

R3,983

Powerline with gigabit speeds and Wi-Fi 6

FRITZ!Powerline 1240 AX supports Wi-Fi 6 in the 2.4 GHz spectrum with up to 600 Mbit/s. With powerline, the data is distributed over the electrical wiring with up to 1,200 Mbit/s. This means PCs and TVs receive a high-speed data connection via your home's power lines and smartphones etc. surf reliably in the Wi-Fi.

Mesh Wi-Fi with FRITZ!

FRITZ!Powerline 1240 AX supports Mesh Wi-Fi, meaning your videos, music and photos seamlessly reach every corner of your home, apartment or office. How does it work? The FRITZ! devices work together as part of a single network, communicating with each other and optimizing wireless devices and network usage.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Why choose one when you can have it all?

Extend the range over your home's electrical wiring all the way to your garden shed, for example, and enjoy fast Wi-Fi in the furthest corners of your home. In addition, high-performance gigabit LAN ensures that PCs, smart TVs, game consoles and the like are optimally connected to the information highway.

Plug it in, push the button, enjoy

Look forward to a setup that's one thing above all else: simple. Plug the securely encrypted devices into the electrical socket and FRITZ!Powerline is ready to use at the touch of a button. You can expand an existing powerline network just as quickly or extend it with Wi-Fi.

60 to 80 percent higher data rate via the socket

The 2x2 MIMO function, whereby two transmitters and receivers exchange data simultaneously via the three wires of the electric circuit, provides the speed boost over the powerline. This is especially useful for data-intensive applications such as streaming in HD or online gaming. Any electrical outlet can be turned into a high-speed network port.

Crossing all barriers

FRITZ!Powerline impresses with maximum speed and long range over the home's electrical wiring. Nothing can hold you back: connect your network devices across multiple walls, without having to lay annoying cables or drill holes in the walls.

With Mesh you enjoy high speeds while surfing, streaming or gaming. Instead of waiting for breathtaking HD television and your favorite music, your media will wait for you.
