

## InLine Multiport power supply, charger, 6x USB- C, PD 3.0, GaN, black

Model: 31516I

Manufacturer: INLINE

EAN: 4043718303113

Product Code: 465863

---

## R2,695

---

**Maximum charging efficiency with up to 120 W total power:**Supplies up to six USB-C devices simultaneously with Power Delivery 3.0 – ideal for modern IT infrastructures.

**Space-saving GaN technology:**Compact, efficient, and powerful – perfect for professional continuous use with minimal heat generation.

**Safe charging thanks to multiple protection:**Overvoltage, short-circuit, and temperature protection ensure uninterrupted operation.

**Future-proof charging infrastructure:**USB-C-PD 3.0 and QC 4+ support current and future devices – for long-term flexibility.

The InLine® multiport power supply is the professional solution for centralized power supply in modern workplaces and IT infrastructures. With a total of six USB-C ports and a combined output power of up to 120 W, it enables the simultaneous operation of multiple devices such as \_\_\_\_\_

smartphones, tablets, or notebooks – ideal for offices, conference rooms, or training environments. The integrated Power Delivery 3.0 technology ensures fast and efficient charging, while Quick Charge 4+ guarantees additional compatibility with current end devices.

Thanks to its compact GaN design, the power supply impresses with its small dimensions, low heat generation, and maximum efficiency. It is suitable both as a desktop charging station and for permanent wall mounting, offering maximum flexibility in use. Integrated protection mechanisms against overvoltage, short circuit, and overheating make it particularly reliable in continuous operation.

With an input voltage range of 100–240 V, the device can be used internationally—a corresponding country adapter is required for use outside Europe. The multiport charger impresses with its performance, safety, and versatility, especially in project business, IT rollouts, or professional mobility solutions.

USB-C PD outputs: 5VDC/3A, 9VDC/3A, 12VDC/3A, 15VDC/3A, 20VDC/5A

Compatibility: Power Delivery 3.0, Quick Charge 4+

Total power: max. 120 W

Input: 100–240 V AC / 2.3 A, 50/60 Hz

Dimensions: approx. 200 × 66 × 22 mm

Includes power cable, 1.5 m
