Large angled LCD display

Thanks to its arc design, this 12-digit calculator has a large angled LCD display, so you can easily read all numbers at a glance, in various light conditions. The user friendly layout - with a clear keyboard and big colour-coded keys - ensures easy and error-free entry of figures.

Green advantage

Give your business a green advantage with this efficient and eco-friendly 12-digit calculator with plastic casing made from Canon recycled copiers. It's the perfect solution for public and private organisations with a Green Procurement Policy – as well as for all responsible enterprises, educational institutions and environmentally conscious individuals.

Energy efficient

Whatever the light conditions, this dual, solar and battery powered calculator never lets you down. The 'auto power-off' function switches the calculator off when not in use for around 7 minutes, to save energy.

Helpful Functions

Simplify calculations and save time with the handy slide switch which provides easy decimal point selection and rounding. Other features include Mark up (MU), Reverse (RV) and Grand Total (GT) calculations.
