Model: 570-11147

Manufacturer: DELL

EAN: 5704174215493

Product Code: 469518

R924

Three-button mouse for all types of computing

The Dell Wired Mouse MS111 is a high-performance choice for all-around computing. Featuring a left-click button, right-click button and scrolling wheel, this mouse is ideal for gaming and Internet browsing. This wired mouse connects to your computer via a USB cable.

Optical engine provides better response

The mouse uses an optical engine to capture the movements of your hand. The optical engine has a fast response time and a movement resolution of 1000 dpi. That means your movements are tracked quickly and accurately on your computer screen.

Durable and reliable

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The MS111 is designed for durability and ease of use. Since the mouse has no moving parts, there are no parts that can wear out or trap dust.

Designed for use with Dell systems

This mouse is designed for use with all Dell systems. The MS111 is covered by Dell Technical Support if you are using it with a Dell computer. The mouse does not require any software.

What's in the Box

Dell Wired Mouse MS111.
