

InLine Cable tie Straps hook-and-loop fastener 12x150mm 10 pcs. black

Model: 59943L

Manufacturer: INLINE

EAN: 4043718188369

Product Code: 469638

R855

Reusable and durable: The Hook and loop cable ties can be opened and closed as often as required – ideal for flexible cabling.

Easy to use: Installation is quick and tool-free – saving time during installation and maintenance.

Strong adhesive force: The durable Hook and loop fastener ensures a reliable hold – even with frequent use.

Versatile applications: Suitable for any application scenario, whether in server cabinets, workshops, or construction sites.

Resistant to external influences: Resistant to seawater, oils, and greases – also suitable for industrial environments.

InLine® Hook and loop cable ties offer a smart solution for structured and flexible cable organization

in professional environments. Thanks to their robust Hook and loop fastener, they can be easily closed and reopened by hand – without the need for tools. This makes them ideal for changing installations in IT environments, at events, on construction sites, or in industrial settings. Their resistance to seawater, oils, and greases also allows them to be used in demanding conditions. Whether for temporary cabling or permanent bundling, with InLine® you can rely on a flexible, reusable, and professional solution for your cable management.

Packaging unit:10 pieces per pack
Closure type: Hook and loop
Reusable: Yes
Resistance: Seawater, oils, greases
