R3,955

Easy BYOD Wireless Meeting Room Upgrade

The best investment for BYOD-friendly small businesses seeking wireless meeting room solutions.

Universal OS and File Format

QCast Mirror QP30 displays any multimedia, such as photos, documents, or full HD videos shared from multiple mobile devices or laptops without OS limitations. Supports iOS 12+, Mac OS 10.12, Android 9+, Windows 7+, and Chrome OS devices*.

*Please make sure that your device is upgraded to the latest version of its operating system to ensure screen mirroring support.

No Software Required for Quick and Easy Setup

Sharing content from multiple presenters can be complicated. QCast Mirror QP30 solves these hassles by simply mirroring a mobile device's screen, requiring no installing or launching of apps or

drivers.

Smooth Playback of High Definition Videos

Utilizing 2.4G/5G dual band wireless technology, QCast Mirror QP30 provides superior transmission quality that delivers smooth playback at up to 4K 30Hz.

*QCast Mirror QP30 operates in either 2.4GHz or 5GHz. Users can switch the bandwidth settings in the Advanced Settings menu.

Multi-Casting in 4-way Split Screen

Share content or collaborate in four windows via Miracast, Apple and Google's screen mirroring and BenQ InstaShare wireless casting technologies without extra apps. It's easy to cast presentations from up to four devices at the same time for constructive collaboration.

OTA Updates for Effortless Maintenance

QCast Mirror's Over-the-Air (OTA) update capability keeps it operating at peak efficiency with the latest firmware, ensuring simple operation and near-zero maintenance.
