

InLine KVM Cable Set USB for 19" KVM Switch length 1.8m

Model: 60667D

Manufacturer: INLINE

EAN: 4043718072187

Product Code: 470757

R993

This InLine® USB Cable Set, proprietary for the InLine® Rack 19’ Automatic KVM Switches part number 60664A, 60665A and 60666A, makes it easy to connect the communication ports of the KVM Data Switch to those of the PC/Server and helps, given their All-in-One design, to keep the wiring under the desk or in a Data Rack cabinet tidy. The colour coding of the connectors, as per the PC99 standard, ensures easy identification of the correct port to which to connect.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
