

InLine Cable KVM Switch, 2-port, HDMI, 4K, USB, Audio

Model: 62613I

Manufacturer: INLINE

EAN: 4043718279029

Product Code: 470866

R2,939

This switch is a 2-port USB cable KVM switch with 2 permanently integrated KVM cables and 1x QuickSwitch button for remote control via an additional cable. The switch also has an audio and microphone switching function to use multimedia applications on both PCs. You can access, control, boot and restart two multimedia computers with one USB keyboard, mouse, screen and speaker/microphone set. On Windows and Mac platforms, the switch provides an innovative, user-friendly KVM switch software - a small Windows/Mac client application to support KVM switching operations such as selecting PCs and programming hotkey sequences, autoscanning, autoscan delay time programming, independent/simultaneous audio & PC switching, etc. The USB cable KVM switch offers USB 2.0 interface technology for plug & play and hot-plugging. In addition to a mouse or keyboard, other fast USB devices can also be connected to the two USB 2.0 ports, e.g. a USB 2.0 hub. Users benefit from maximum flexibility and user-friendliness thanks to the compact design in a single device. The 1.5 metre cable remote control enables fast and convenient switching without a keyboard combination.Please note:

The InLine KVM switches are designed for office and home office applications as well as for

monitoring and controlling multiple computers from one workstation.

However, the KVM switches are not suitable for gaming accessories such as mice and keyboards with programmable special keys, nor are gaming monitors with high frequencies from 120Hz supported.

The hotkey function for the keyboard only works on the designated console USB port; hotkey control is not possible when connected via the USB hub ports.
