

InLine KVM Desktop Switch, 4-port, Dual Monitor, DP+HDMI, 4K, USB 3.0, Audio

Model: 62644I

Manufacturer: INLINE

EAN: 4043718284719

Product Code: 470872

R10,463

The InLine KVM Desktop Switch was specially developed for the use of two monitors (1x HDMI, 1x DisplayPort) on four multimedia computers. With the InLine KVM Desktop Switch you can completely control four PCs with only one USB keyboard, mouse and two monitors. This dual monitor HDMI/DP KVM switch supports resolutions of up to 3840x2160 (4K) at 60Hz for maximum comfort when adapting to your display needs.

With TTU emulation technology integrated into a new ASIC chip, the dual monitor HDMI/DP USB KVM switch is able to offer complete versatility in meeting the functional requirements of all types of modern keyboards and mice. It features 2-channel stereo sound for full sound functionality. Its advanced audio & microphone switching function also gives you an uninterrupted multimedia experience during KVM operation (e.g. you can listen to music from one PC while operating another).

Multi-platform support for PC and Mac is also available.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Please note:

The InLine KVM Switches are designed for office and home office applications as well as for monitoring and controlling multiple computers from one workstation. However, the KVM Switches are not suitable for gaming accessories such as mice and keyboards with programmable special keys, nor are gaming monitors with high frequencies of 120 Hz or more supported. The hot key function for the keyboard only works on the designated console USB port, connected via the USB hub ports, hot key control is not possible.
