This Device is a 2-Port Smart Touch USB KVM Switch that users can access, control, boot, and reboot their computers with a single set of keyboard, mouse, and DisplayPort monitor display. It features the latest Smart Touch button for quick switch and two USB 3.0 device ports for fast data transfer between KVM and USB devices. Compare with USB 2.0, USB 3.0 is up to 10 times faster in transfer rate, which can satisfy modern data transfer with rich media and large digital files. Besides, it supports TTU (True Transparent USB) Emulation Technology which is capable of a complete versatility in dealing with the functional requirements of all types of advanced keyboards and mice.
