

InLine Cat.6A coupling, waterproof IP68, 2x RJ45 F/F, 1:1

Model: 69990T

Manufacturer: INLINE

EAN: 4043718291656

Product Code: 471335

R958

Reliable outdoor use thanks to IP68:The shielded Cat.6A coupler offers robust protection against moisture, dust, and extreme temperatures.

Optimized for industrial applications:The UV-resistant housing withstands harsh environments—from machine halls to outdoor cabinets.

Universally applicable with standard patch cables:Compatible with cable diameters from 3 to 8 mm – flexible and easy to install.

Strong performance for modern networks:Data transfers of up to 10 Gb/s enable powerful applications in the field.

Quick and secure screw connection:Two M25 threads enable a stable, tool-free connection.

The InLine® Cat.6A patch cable coupling with protection class IP68 is specially designed for use in harsh conditions. Thanks to its robust construction and complete shielding, it is ideal for industrial networks, outdoor installations, and telecommunications environments.

The UV-resistant housing provides permanent protection for the connection against sun, dirt, and

moisture. Combined with a wide temperature tolerance range of -40 °C to 85 °C, the coupler meets the highest requirements in professional environments. The two M25 threads ensure simple, secure screw connection—without the need for special tools.

Compatibility with standard RJ45 patch cables and cable diameters from 3 to 8 mm ensures flexible application options. The coupler supports transmission rates of up to 10 Gb/s – ideal for applications where reliability and speed are required. A 1:1 assignment enables loss-free signal transmission. Whether for temporary use or permanent installation, this patch cable coupler impresses with its quality, versatility, and durability.

Contact resistance: 10 mOhm

Connection type:1:1
