

# InLine Outdoor Connector Cat.6A waterproof IP68

Model: 69992W

Manufacturer: INLINE

EAN: 4043718291632

Product Code: 471342

## R958

**Reliable outdoor connection:**The UV-resistant housing with IP68 protection offers optimum protection against dust, water, and environmental influences.

**Quick installation thanks to LSA technology:**The tool-free clamping technology enables simple and time-saving installation of cables.

**High compatibility:**Supports common installation cables with a diameter of 4.5 to 8 mm – ideal for versatile network applications.

**Gigabit-capable up to 10 Gb/s:**The shielded design and precise 1:1 connection ensure reliable transmission speeds.

**Resistant to extreme temperatures:**Operable from -40°C to +85°C—for stable networks even under extreme conditions.

The InLine® Cat.6A cable connector with LSA technology offers a reliable solution for connecting and extending installation cables in professional network environments.

The robust housing is UV-resistant and complies with protection class IP68 – ideal for outdoor use or

in industrial environments. The integrated LSA clamping technology allows for quick and easy installation without plugs or special tools. The 1:1 connection ensures continuous data transmission. The shielded design minimizes electromagnetic interference and enables transmission rates of up to 10 Gb/s. With a wide temperature range from -40 °C to +85 °C and support for cable diameters from 4.5 to 8 mm, the connector is versatile. Whether in building construction, on construction sites, or for outdoor cabling, this connector is a practical and reliable solution for professional requirements.

**Thread size:**2x M25

**Contact resistance:**10 mOhm
