

InLine Patch Panel Cat.6 24 Port 19" 0.5U light grey RAL7035

Model: 76224A

Manufacturer: INLINE

EAN: 4043718197576

Product Code: 472847

R1,671

Up to 24 installation cables can be connected via LSA insulation displacement connectors in this 48.26 cm (19") patch panel. The patch panel is designed up to Cat. 6 and is fully shielded. Due to the half height of the panel, it is possible to install 48 ports on just one height unit with 2 of these patch panels, ideal if, for example, the server rack needs to be extended. The RJ45 connections are numbered consecutively. The housing can be easily opened and closed again using the knurled screws on the rear.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
