halogen free
Copper black 1m**

Model: 76811X

Manufacturer: INLINE

EAN: 4043718235254

Product Code: 473034

R855

The InLine® 180° patch cables offer the best transmissio quality and maximum flexibility! The plug of the bare copper black patch cables can be tilted freely around 180° and is optimally suited in tight situations. The halogen-free Cat.6A cables are available in 1 to 10 meters and and has S/FTP (PiMF) Shielding up to 500MHz with a high-quality finish. Please note: Because of the wide of this RJ45 plug, the usability for network devices with densely aligned RJ-45 jacks is limited.
