

# InLine Fiber Optical Duplex Cable LC/LC 50/125µm OM4 3m

Model: 88543P

Manufacturer: INLINE

EAN: 4043718177868

Product Code: 474673

## R924

**Reliable high-speed connection:**The OM4 multimode fibre cable with 50/125µm enables efficient data transmission over short distances – ideal for data centres and server cabinets.
**High-precision LC/LC connector:**UPC polishing on both sides guarantees low attenuation values and stable connections – suitable for professional applications.
**Halogen-free LSZH jacket:**The fire-resistant design ensures increased safety in public facilities and enclosed spaces.
**Robust duplex design:**Two separately routed fibres with a diameter of 3.0 mm ensure flexibility during installation and facilitate cable routing.
**Colour-coded purple coding:**Complies with the standard for OM4 cables – for quick identification and a structured network infrastructure.

The InLine® fibre optic duplex cable with LC/LC connectors has been developed for professional

applications in data centres, corporate networks and structured building cabling. With its OM4 multimode fibre technology (50/125 µm), it offers a reliable high-speed connection for demanding network requirements over short transmission distances.
The LC connectors on both sides with precise UPC polishing guarantee low insertion loss and consistent signal quality – a basic requirement for the stable operation of modern network systems. The halogen-free LSZH (Low Smoke Zero Halogen) jacket also ensures increased safety during installation in sensitive areas such as public facilities or office buildings.
With a cable diameter of 3.0 mm per fibre, the cable offers high flexibility and a robust design. The purple colouring complies with the standard for OM4 fibres and supports easy differentiation within complex cabling environments. The cable is supplied in a practical shop wall bag including EAN code, which facilitates storage and integration into existing distribution processes.

Connector type: 2x LC to 2x LC
Polishing: UPC on both sides
Cable diameter: 3.0 mm per strand
Fibre type: OM4 multimode, 50/125µm
Jacket material: LSZH (halogen-free)
Fibre colour: Purple
