

InLine RCA Cable 2x RCA male / male gold plated 10m

Model: 89933Y

Manufacturer: INLINE

EAN: 4043718163908

Product Code: 474946

R855

Reliable audio transmission:The RCA cable provides a stable connection between audio components, featuring 2x RCA connectors for analogue signal transmission.

Standardised 2x RCA configuration:2x RCA male to 2x RCA male connectors ensure a direct and compatible connection without the need for additional adapters.

Clear channel identification:Red and black marked connector sleeves facilitate quick and error-free assignment of audio channels during installation.

Flexible length options:Available in 0.5 metres, 1 metre, 2 metres, 3 metres, 5 metres, 7 metres and 10 metres for project implementation tailored to your needs.

Universal audio connection:Suitable for all devices with 2x RCA connectors for analogue signal transmission within existing audio infrastructures.

The InLine® RCA cable is used to transmit analogue audio signals between devices with 2x RCA connectors. The double-ended configuration, each with 2x RCA plugs, enables a direct connection without the need for additional adapters.

The red and black colour-coded connector sleeves facilitate clear channel assignment and reduce installation errors. This makes the cable suitable for structured audio cabling within existing systems.

As it is available in several standard lengths, the cabling can be planned to suit specific requirements. The cable is available in 0.5 metres, 1 metre, 2 metres, 3 metres, 5 metres, 7 metres and 10 metres.

The white colour scheme with gold-coloured connectors allows for discreet visual integration into various installation environments.

Connector type: 2x RCA plug to 2x RCA plug

Signal type: Audio

Colour coding: red / black

Cable colour: white

Connector finish: gold-coloured
