

InLine Fibre optic coupler, quad LC/LC, singlemode, green, ceramic sleeve

Model: 89989I

Manufacturer: INLINE

EAN: 4043718333097

Product Code: 474991

R855

Quad LC/LC coupler- for the simultaneous connection of four single-mode connections

Compatible with duplex SC cut-outs- easy integration into common patch panel systems

Ceramic sleeves- for precise centering and minimal muffling

Stable metal bracket- ensures a firm fit and high reliability

UL 94V0 enclosure- increased fire protection for professional installations

The InLine® fiber optic coupler in quad design offers an efficient solution for connecting four LC/LC single-mode fibers – in the smallest of spaces. This design is particularly suitable for high-density applications such as data centers, server racks or fiber optic backbones. The green coloring clearly indicates single-mode use, which facilitates installation and maintenance.

High-quality ceramic sleeves enable precise alignment of the fibres, which minimizes signal loss. The

robust metal holder ensures a firm hold during installation and a long service life, even when frequently repositioned. The flame-retardant housing in accordance with UL 94V0 also meets the highest safety requirements. Integrated laser protection and dust protection caps offer additional safety and cleanliness.

Additional technical specifications:

Type: Quad LC/LC coupling

Mode: Singlemode

Color: green

Suitable for duplex SC cut-outs

Internal laser safety shield

Housing material: PC (UL 94V0)

Shell material: ceramic

Fastening: Metal bracket

Included: White dust protection caps
