

InLine Fiber Optical Adapter Duplex LC/LC SM Ceramic Sleeve green ext. shutter

Model: 899890

Manufacturer: INLINE

EAN: 4043718333103

Product Code: 474994

R820

Duplex LC/LC coupler with integrated shutter- for secure and clean fiber optic connections

Fits simplex SC cut-outs- maximum compatibility with common patch panels

Ceramic sleeves- ensure precise fiber routing and minimal muffling

Robust metal bracket- ensures a tight fit during assembly

UL 94V0 housing with laser safety shield- for the highest safety requirements

The InLine® fiber optic duplex coupler with LC/LC connectors in single-mode design is the ideal solution for reliable fiber optic connections in professional networks. It enables a precise and stable connection of two LC cables with minimal attenuation - ideal for structured cabling in data centers, industrial applications or telecommunications environments. The coupler is suitable for simplex SC cut-outs and can therefore be flexibly integrated into existing patch panels. A key safety feature is

the permanently installed laser protection shutter, which prevents light from escaping when the port is unused. The high-quality ceramic sleeve enables optimum alignment of the fibers and ensures low-loss signal transmission. The flame-retardant plastic housing in accordance with UL 94V0 and the integrated metal bracket offer additional stability and fire protection.**Additional technical specifications:**

Type: Duplex LC/LC coupling

Mode: Singlemode

Color: green

Suitable for simplex SC cut-outs

Shutter: External, non-removable laser safety shutter

Housing material: PC according to UL 94V0

Shell material: ceramic

Fastening: With metal bracket

Includes: Dust protection cap (white)
