

InLine Fibre optic adapter, simplex SC/SC, SM, ceramic, with shutter, green

Model: 89992F

Manufacturer: INLINE

EAN: 4043718333073

Product Code: 475001

R837

Simplex SC/SC coupler with laser protection shutter- for secure single-mode connections

Compatible with SC simplex cut-outs- easy integration into common systems

Ceramic sleeve for precise connection- reduces attenuation and increases signal quality

Robust metal bracket- ensures a tight fit and mechanical stability

UL 94V0 enclosure- meets high fire protection requirements

The InLine® fiber optic simplex SC/SC coupler is the ideal solution for the low-loss connection of two SC-based single-mode fiber optic cables. The high-quality design with integrated ceramic sleeve enables precise alignment of the fibers, which ensures maximum performance with minimum attenuation. Thanks to the external, non-removable laser protection cover (shutter), the coupling offers an additional level of safety - both during installation and during operation. The stable metal
