

InLine Fibre optic adapter, simplex SC/SC, SM, ceramic, internal shutter, green

Model: 89992G

Manufacturer: INLINE

EAN: 4043718333080

Product Code: 475002

R820

SC/SC simplex coupler with internal laser safety shutter– for maximum safety with unused ports

Ceramic sleeve for precise alignment– reduces loss of attenuation, increases signal quality

Mounting compatible with SC simplex cutouts– easy integration into common patch panels

Metal bracket for a stable hold– even with frequent use

Compliant with UL 94V0– meets requirements for fire protection & reliability

The InLine® SC/SC simplex coupler for single-mode fiber optic cables impresses with its robust design and high safety features. The built-in ceramic sleeve ensures precise centering of the fibres for low-loss transmission, even for longer distances or demanding applications.

The integrated **laser protection shield** inside the coupling, which automatically prevents light
