Cool Confidence

MAXIMIZED NATIVE COOLING

Square-type mesh front panel

TUF Gaming GT302 ARGB features an optimized square-type mesh front panel, ensuring unobstructed airflow and great porosity engineered to maximize airflow efficiency.

FOUR 140 X 28 MM ARGB FANS INCLUDED

Pre-installed 140 x 28 mm ARGB fans (AR140) with extra-thick design yield very high airflow while remaining exceptionally quiet and aesthetically pleasing.

INTERCHANGEABLE SIDE PANELS

Choose between tempered glass for better system demonstration or a mesh panel for increased ventilation, with either choice providing quick tool-free access.

DETACHABLE TOP PANEL

The removable top panel makes cable routing and the installation of fans or a radiator easier than ever.

SPACE FOR POWERFUL COMPONENTS

The beefiest motherboards and graphics cards can fit, despite the compact dimensions. It also supports ASUS hidden-connector motherboards

FRONT PANEL HIGH-SPEED USB TYPE-C®

In addition to two USB-A ports, the TUF Gaming GT302 ARGB front panel features a USB Type-C® port ready to transfer at up to 20 Gbps*.

*Actual speed varies by motherboard.

EASY PC BUILD EXPERIENCE

OPTIMIZED CABLE MANAGEMENT

The TUF Gaming GT302 ARGB comes with a cable grommet bar featuring three large straps to let you neatly organize two sets of cables, and three cable clips on the side for tidy routing of the 8-pin CPU power cable.
