ProArt Display PA147CDV Creative Tool

Dial up Your Creative Flow

ProArt Display PA147CDV is a 14-inch creative tool with a 32:9 aspect ratio. Built to empower creators and streamline creative workflows inside the studio or out on location, it features the intuitive ASUS Dial, customizable Control Panel, 10-point multitouch controls, and Microsoft Pen Protocol 2.0 (MPP 2.0) support. PA147CDV is Calman Verified and factory calibrated to Delta E 2, and it covers 100% of sRGB and Rec. 709 color spaces for exceptional color. Aesthetically, PA147CDV looks the part, too – winning the 2021 Good Design and 2021 Computex d&i Gold awards.

Built for Creators

Streamline Your Workflow

The customizable Control Panel puts the tools and functions you need front and center, allowing you to make adjustments quickly for a more efficient workflow. For easier multitasking, you can even use split-screen mode to show shortcuts for different apps side by side.

Ready for that Creative Spark

With ProArt Display PA147CDV, you're always ready when an idea comes. Take notes or sketch on the go with a stylus, or hook it up to your laptop with just a single cable.

Natural Writing or Drawing

With MPP 2.0 support, you're able to use a pen or stylus to jot down or sketch ideas whenever inspiration strikes*.

*ASUS Pen or stylus not included.

Creativity with a Spin

ASUS Dial works with Photoshop, Photoshop Lightroom Classic, Premiere Pro and After Effects Classic for shortcuts access

ASUS Dial is designed to work with compatible Adobe software* such as Photoshop, Photoshop Lightroom Classic, Premiere Pro and After Effects**. Customized shortcuts enable you to zoom in and out of images or adjust brush size by simply turning the ASUS Dial. You can even tailor the default interface to suit your own work style.

Intuitive Control at Your Fingertips

Control Panel provides an intuitive interface that's unique to each supported Adobe software*. The 10-point multitouch functionality** of PA147CDV means you can quickly reach out and switch tools, turn a dial to get the exact color you're looking for, or adjust a key parameter for the tool you're using – it's all neatly laid out so you can work more efficiently.

Experience Full Color

Wide Color Gamut

Color Accuracy

Wide 100% sRGB and 100% Rec. 709 color gamut offers more vivid colors, ensuring deeper primary colors like red, green and blue, and richer secondary colors.

Pre-Calibrated for

Out-of-the-Box Accuracy

Color professionals rely on color-accurate displays to ensure that their creations render as intended. PA147CDV is pre-calibrated at the factory and Calman Verified to guarantee industry-leading color accuracy. Every ProArt display undergoes meticulous testing to ensure smooth color gradation and to guarantee the very best visuals.

Quick Color Gamut Adjustment

ASUS-exclusive ProArt Preset provides multiple modes for quick color-gamut adjustment. Whether you're grading colors, editing videos or manipulating photos, you can switch and match your needs easily.

Rich Connectivity

PA147CDV offers a host of ports to cater to your creative needs. Two USB-C ports deliver video and power input over a single cable, with additional flexibility offered by the HDMI port for a connection to various input sources.

*Connected device requires USB Type-C (DisplayPort Alt Mode and at least 10W power output.)

Create in Comfort

Built-in Adjustable Kickstand

Caring for Your Eyes

PA147CDV has a multi-award winning design that bagged the 2021 Good Design and Computex d&I Gold awards. Its patented mechanical kickstand lets you adjust the display to the perfect angle. Lay PA147CDV flat on the desk to do some sketching, or tilt it up to an almost-vertical position to track the timeline in your video editing app. Simply set the right tilt angle to suit the task at hand.
