

ASUS LCR50 USB cable 1.5 m USB C Black

Model: 90XB09MN-BCA000

Manufacturer: ASUS

EAN: 4711387647875

Product Code: 476229

R1,280

The ROG 240W USB-C cable is 1.5 m in length and features an E-Marker chip that ensures fast, stable charging and data transfers. Its durable design is ideal for daily use.

Convenient, high-performance charging

The ROG 240W USB-C Cable features a built-in electronic marker (E-Marker) chip and Adjustable Voltage Supply (AVS) technology to ensure wide-ranging compatibility with various devices, facilitating convenient charging and stable data transfers. This 1.5-meter cable is made for daily use and has been subjected to stringent durability testing, including a 5,000-cycle cable bend test and a 10,000-cycle insert-and-removal test.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Reliable charging with adjustable voltage

With a built-in E-Marker chip, the ROG 240W USB-C Cable ensures compatibility between the cable and laptops or USB-C devices. It has a 240-watt power rating and uses a 5-amp current to charge USB-C® devices. Additionally, AVS technology enables efficient 28-, 36-, and 48-volt charging and protects both the cable and connected device against potential damage from overheating, short circuits, and power surges.

Stable data transmission

The 1.5-meter ROG 240W USB-C Cable offers stable 480 Mbps data transmission speeds.

Stringent quality testing

The ROG 240W USB-C Cable has passed a battery of stringent quality and durability tests, including a 5000-cycle 180° cable bend test and a 10,000-cycle insertion-and-removal test. These tests ensure that the cable is ready to handle the rigors of everyday use.
