

InLine Airplane Bluetooth Audio Transmitter, BT 5.0, aptX HD/LL

Model: 99160I

Manufacturer: INLINE

EAN: 4043718289578

Product Code: 477461

R2,077

The InLine Bluetooth Flight Audio Adapter transmits the audio signals of the board entertainment wirelessly via Bluetooth in highest quality to your favourite headphones, no matter if in-ear, on-ear or over-ear. The adapter is compatible with the most common one-, two- and three-pin systems and also has a USB port. The power supply is also ensured over long distances by a battery and charging case. Furthermore, the Bluetooth Flight Audio Adapter can easily be used as a battery-operated Bluetooth transmitter on audio sources with 3.5mm stereo jack output. This allows you to stream Bluetooth audio to your headphones when you are away from the aircraft.
