Intelligent Ambient Adaptation

BenQ's exclusive three integrated sensors detect environmental factors in real-time and work with CinematicColor tuning technology. This guarantees perfect visuals and exceptional color performance, adapting your viewing experience to any environment without the need to adjust your living space.

Perfect Colors on Any Wall

Tailored to modern design, our advanced algorithm is optimized for the six most popular wall colors, ensuring stunning visuals that perfectly match your wall.

Brilliant Clarity in Any Ambient Light

Experience stunning clarity with 2600 ANSI Lumens, as the advanced ambient light sensor adjusts

brightness for the best viewing experience.

Consistent Image Quality from Any Distance

Wherever you project, image settings are automatically optimized based on distance and environment, ensuring optimal visuals.

Discover Cinematic Precision

Enhances 4K HDR viewing with advanced tone mapping, balancing details in both bright and dark scenes.

Hassle-Free Setup for Any Corner

Enjoy the flexibility of multi-angle installation with BenQ GP520. Whether placed on a table, shelf, floor, or projecting onto the ceiling, it's perfect for your open-plan living room.

Flexible Placement Options

Three tripod holes provide multi-angle installation options. Each mount supports universally compatible screws for secure setup.

Non-Stop Movie Marathon

The BenQ GP520 home entertainment projector, equipped with Google TV, delivers personalized recommendations and easy access to streaming services such as Netflix, Prime Video, YouTube, Disney+, and more, all enhanced by the convenience of Google Assistant.

Escape with Atmospheric Projection

Turn any wall or ceiling into a scenic escape with our app. Immerse yourself in breathtaking landscapes, calming ambiance, or the vastness of space, all accompanied by soothing sounds.

Expand Your Entertainment

Experience smooth gaming with PlayStation 5 (PS5), PlayStation 4 (PS4), Xbox Series X, Nintendo Switch, and SteamDeck on the BenQ GP520. HDMI 2.1 with ALLM (Auto Low Latency Mode), automatically optimizes the video transmission delay while detecting game signals.

Immersive Sound for the Whole Family

The GP520's 12W x 2 speakers provide powerful sound for an immersive experience. Enhance your
