BenQ 23.8” 1080p FHD Business Monitor

Model: 9H.LNNLA.TBE

Manufacturer: BENQ

EAN: 4718755096969

Product Code: 477650

R3,698

Stay Focused. Work with Eye Comfort.

You can now ease eye strain from nonstop docs and spreadsheets with BenQ Eye-Care Triple Protection. Enjoy BL2490TC’s clean design, sharp visuals, and all-day adaptive eye comfort for great productivity.

Adaptive Eye-Care. Steady Eye Comfort.

You shouldn’t have to adjust setting after setting just to protect your eyes. That’s why BenQ Eye-Care Monitors come equipped with Triple Eye Protection, with Visual Optimizer, Low Blue Light, and Flicker-Free technology to deliver effortless, all-day eye comfort.

Your Screen Knows the Light

Visual Optimizer (formerly B.I.+), or V.O. for short, puts an end to eye strain. With a built-in sensor that optimizes brightness and color temperature for your environment, BenQ has thought of eye health well beyond just blue light protection. No guesswork, no fiddling—just comfortable viewing, from 9 to 5 and beyond.

Adaptive Comfort, Your Way

The Visual Optimizer (V.O.) Hotkey lets you tweak brightness and color temperature separately—for a screen that feels just right.

We Cut Blue Light, Not Color Quality

BenQ’s TÜV-certified Low Blue Light technology protects your eyes during long hours of work, without giving your screen a yellowish tint. You can fine-tune the level to find the right balance, so your work always looks the way it should.

Say Goodbye to Invisible Flicker

Even screens that seem perfectly fine can flicker—too subtle for you to see, but not for your eyes. BenQ’s TÜV-certified Flicker-Free technology keeps the screen steady and your eyes comfortable, even during long workdays.

Certified Eye Comfort You Can Trust

Backed by TÜV Rheinland’s Eye Comfort 4-Star certification and Eyesafe Certified 2.0 endorsement, the BL2490TC meets strict international standards for visual wellness. It’s proof your eyes are in good hands, every hour of the day.

Sharp Images, Gentle on the Eyes

Experience vivid colors and reliable clarity from any angle with the BL2490TC’s IPS panel and 99% sRGB color gamut. Its 4-sided ultrathin bezels help you stay focused and comfortable through document edits and multitasking throughout the day.
