

Aerocool Cog 2g heat sink compound Thermal paste 8.5 W/m·K

Model: ACTG-NA62210.01

Manufacturer: AEROCOOL

EAN: 4710562755497

Product Code: 479025

R924

High-performance thermal paste specially designed for overclocking or gaming PCs. Comes with 2g thermal paste that's easy to apply and perfectly fills the space between your cooler and CPU. Nanotechnology in the paste improves heat conduction via its micro molecules. Made with non-electric conductive materials, this thermal paste is completely safe to use. Comes with a spreader for quick and easy application.

HIGHLY EFFICIENT

Cog is a high performance thermal paste. It enhances the efficiency of the heat conduction, so you can game for hours without worrying about overheating your CPU.

EASY TO APPLY

Thanks to its viscosity, Cog thermal paste is easy to apply and allows perfect filling between your

cooler and CPU. Low evaporation point and high temperature tolerance allow this paste to last a lifetime.

COMPLETELY SAFE

Made with non-electric conductive material. The thermal paste is completely safe and the nanotechnology in the paste improves heat conduction via its micro molecules.
