Lightning-Fast 24.4 Gbps Quad-Band WiFi 7

Experience the world’s first quad-band WiFi 7 router with blazing-fast speeds up to 24.4 Gbps. Every device in your home network will run at top performance. The brand-new 6 GHz band provides exceptional bandwidth and congestion-free channels exclusive to your devices.

16-Stream Quad-Band

More available bandwidth and less congestion

Dual 5 GHz Bands

More existing clients connect to 5 GHz to get higher throughput

320 MHz Width Channel

Double the width, double the speed

4K-QAM

Packs 120% more data than WiFi 6 for higher speeds

High Gain, High Isolation, High Integration, and High Coverage

12× Internal Antennas

Proprietary WiFi optimization and 12× optimally positioned antennas deliver more capacity, stronger and more reliable connections, and less interference.

V-Fold Design

Maintains a sharp aesthetic.

Advanced Case Design

The metallic texture enhances the sense of quality and helps it perfectly integrate into any home environment. A larger heat sink and refined casing keeps the system cool under performance.

Flexibly Create Whole Home Mesh WiFi

Archer BE900 is EasyMesh-compatible. If you have any dead zones at home, just add another EasyMesh router/range extender or any TP-Link device that supports OneMesh to further form your

whole home multi-gigabit mesh WiFi. No more searching for a stable connection.

WiFi Dead Zone Killer

Eliminate weak signal areas with WiFi coverage for the whole house

Smart Roaming

Uninterrupted streaming when moving around your home

One WiFi Name

No more switching WiFi network names

Unified Management

Manage your whole home WiFi from the central node via the Tether app/Web UI

Your Security is Our Priority

With TP-Link HomeShield, enjoy advanced security features that deliver a safe environment that protects your family and network's data and privacy.

Home Network Scanner

Real-time network scanner to detect potential threats and security issues.

Parental Controls

Manage time online and block inappropriate content to keep your family safe online.

Quality of Service

Assign your favorite devices to have the fastest connections for top performance.

Private IoT Network for More Security

Set up a separate WiFi for IoT devices and overlay HomeShield and advanced WPA3 encryption to better protect the security of your home network and IoT devices.

VPN Clients and Server Supported

Allow devices in your home network to access remote VPN servers without needing to install VPN software on every device. Archer BE900 can run both the VPN and ordinary internet connections at the same time, delivering security and flexibility.

Easy Setup and Use

Whether you prefer the intuitive Tether app or TP-Link’s powerful web interface, you can set up your Archer BE900 in minutes. The Tether app allows you to manage network settings from any Android or iOS device.

Protect Your Children

Block inappropriate content for your children and customize a time range for better online habits.

New Connection Notifications

You will be notified by your phone when new devices connect. Kick off any suspicious connections and block them. It’s as simple as that.

Easy Firmware Upgrades

Tired of upgrading firmware manually? OTA updates simplify firmware upgrades with a click in the management panel. To keep your security and functions always up to date, just turn on the auto schedule.
