Exploring the New Era of Home WiFi

BE3600 Dual-Band Wi-Fi 7 Router

Next-Level Experience Realized with 3.6 Gbps WiFi 7

Powered by Wi-Fi 7 technology, Archer BE230 delivers an incredible wireless rate of up to 3.6 Gbps, enabling your devices to run at full speed. Enjoy fluent 4K/8K streaming, immersive AR/VR gaming, and blazing-fast downloads.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

2.5 Gigabit Wired Connections

1× 2.5 Gbps WAN port and 1× 2.5 Gbps LAN port make full use of the Gigabit speeds from your local ISP. Breakthrough the 1G bottleneck and drive your devices to peak performance.

USB 3.0 Ports

Easily share files between connected devices by plugging into an external drive. You can even make it your personal cloud storage and access it from outside securely.

Boosted WiFi Coverage Throughout Your Home

4× high-performance antennas boost WiFi signals throughout your home. Beamforming technology detects devices and concentrates signals towards them, especially to previously hard-to-reach areas.

Flexibly Create Whole Home Mesh WiFi

Archer BE230 is EasyMesh-compatible. If you have any dead zones at home, just add another EasyMesh router/range extender to further form your whole home multi-gigabit mesh WiFi. No more searching for a stable connection.

VPN Clients and Server Supported

Allow devices in your home network to access remote VPN servers without needing to install VPN software on every device. Archer BE230 can run both the VPN and ordinary internet connections at the same time, delivering security and flexibility.

Setup Got Easier than Ever

Install the Tether app and simply follow the on-screen directions. In just three easy steps your entire home can be blanketed in strong and reliable WiFi.
