

Targus ASF16W1GL monitor accessory Screen protector

Model: ASF16W1GL

Manufacturer: TARGUS

EAN: 092636362560

Product Code: 481853

R1,593

Suited for Workplace or Personal Use

One study found that employees are 50% less productive when their visual privacy is at risk, and that two in three employees expose sensitive data outside the workplace.

With more of us working in open office settings, on-the-go, or in unsecured environments, visual privacy is a critical consideration for employers and employees alike. Privacy screens add a layer of protection that encourages productivity at the same time it protects confidential information.

30° Viewing Angle

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Even in public places like hotel lobbies, airplanes, or cafes, the 4Vu Privacy Screen keeps your data safe from prying eyes. Your content is visible only to the person directly in front of the screen and up to 30° on either side. You have full clarity and visibility, while onlookers or passers-by see only a black screen.

Reduced Glare, Even in Bright Rooms

Our anti-reflective coating reduces glare and improves light transmittance under most viewing conditions. The result is brightness that’s up to 12.4% higher than competitive privacy screens for comfortable, clear views.

Four Easy Installation Options

Quickly and easily attach the screen directly to your display using on the four convenient installation options. Under bezel tabs: attach directly to a privacy screen and slide under the laptop bezel for a clean look. Slide tabs: attach to the side of a laptop’s LCD frame to hold the privacy screen in place. Long adhesive strips: stick on to the LCD screen for a firm, fixed hold.
Universal flexi-hinges: attach to the top of the privacy screen and over the top of the laptop to create a seamless on/off experience with a simple flip. Use the included adhesive lift tab, to easily flip from privacy mode to public mode without fingerprints. Two versions are provided: 1 for bezelled screens; 1 for infinity screens.

Blue Light Filtering

Whilst blue light is all around us, too much screen time can lead to increased exposure of artificial blue light, which disrupts the natural stimulation to our brain from diurnal cycle, leading to potential of 'digital eye strain' short term and sleep deprivation led fatigue long term. The 4Vu Privacy Screen filters blue light to reduce eye strain and minimise the potentially harmful effects on your vision.
