BE Flexible Dual

Simple to set up, adjustable, and backed by a lifetime warranty, this is our best monitor arm yet!

Double the ergonomics, double the efficiency

This dual monitor arm optimises your workplace by providing space for two monitors, allowing you to work ergonomically and efficiently. Equipped with the most advanced innovations, the BE Flexible Dual is not only quick and effortless to install, but also consists of 72% recycled material and is 100% recyclable. Create your ultimate workspace with ease.

Easy and quick to install

Are you looking for a dual monitor arm that can be installed without any hassle? The BE Flexible Dual is the ideal solution. Designed with minimal parts, you can easily install both arms with one Allen key. The Allen key is easy to store by the monitor arm's clamp after use.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
